Message from the President . . .

In the Fall I emphasized the high quality of our ILR group. Our ILR continues to be strong and is what places us in a valued position among the more than 240 ILRs in the country. I hope you are as proud of Bradley's ILR as I am. It wouldn't have been possible without your help. Thank you for being eager students, filling organization roles, and acting as officers, captains, and class leaders.

A few words are needed to cover the "State of the ILR." The 1998-1999 academic year was full of transition. Bradley and our group selected a new Director, Jon Neidy. He and the excellent staff in the Division of Continuing Education, have meaningfully contributed to the success of our program. We weathered the storm of a tuition increase. Our class attendance is slightly less than last year, but 323 have attended our Fall and Winterim sessions. We are in a sound financial condition to enter this Spring session. Our mailing list contains an impressive 5500 names. Our class satisfaction level continues to be excellent, and this Spring we will be presenting 37 classes. Our Bradley ILR group is a solid organization that is poised and ready to succeed in the new millennium.

In the future great things will be happening. Quality will continue to be our goal. New learning opportunities will include classes on the Y2K phenomenon and your first opportunity to be electronically connected with another university using video conferencing technology. You will have a class extended so students in New York can react as if they were in the same room where you are. You will continue to have opportunities to attend classes on subjects you helped to select. You will continue to be asked to help if you are interested. You will continue to learn about the arts and sciences and take educational trips with ILR members who have similar interests.

Be proud of your ILR. I certainly am proud of all of you. Thank you for being a part of our success. See you in class!

—John Quinn
