

OLLI Online JANUARY 2021

WHAT IS OLLI ONLINE?

OLLI is an acronym for The Osher Lifelong Learning Institute at Bradley University, an organization of more than 1,200 members who are at least 50 years old and who want to stay vital and active as they reach and enjoy retirement. One of the best ways to do that is to keep learning, and OLLI offers many options to do so.

OLLI Online provides many virtual learning experiences delivered via Zoom, a free and easy to use video conferencing software. Meeting "live" via Zoom allows learning to continue from the comfort and safety of our own homes until we can meet in person again. Please review our current program options so you can pick what best fits your learning preferences and interests:

- Introduction to Zoom sessions help our members learn how to use the software on their computers, tablets, or smart phones. Led by a volunteer OLLI instructor and offered free of charge to all, our goal is to help you feel comfortable with the technology so you'll enjoy your experience with OLLI Online.
- OLLI Online Classes are lecture-based courses during which the instructor delivers the learning material with the opportunity for participants to ask questions either during or after the presentation. OLLI Online classes are offered monthly on Wednesdays; they meet for approximately one hour each at 9:00 a.m., 11:00 a.m., 1:00 p.m., and 3:00 p.m.
- OLLI Online Study Groups are participation-based; the facilitator delivers core learning material, but all participants learn by sharing. OLLI Online Study Groups usually have an expectation of reading, watching a video, or other independent study outside of each session. Each group starts at various times throughout each month, and usually meet for 1.5 hours to 2 hours for four to six weeks. Seats are usually limited to 15 to 25 participants so that everyone has an opportunity to actively participate.

- OLLI Online Learning Trips includes "Travel" Beyond Peoria which is an opportunity to travel virtually via Zoom to visit museums, attractions and speakers around the world. Support Local is our program with area restaurants and businesses which include a curbside pickup, followed by a conversation or chance to go behind-the-scenes with the owner/chef the next day.
- OLLI Online Originals are exclusive talks with local leaders and businesses from the community and beyond. These one-hour sessions are a great way to keep informed about specific topics, governmental updates, or business organizations.
- OLLI Online Free and Social Events are free social events hosted by an OLLI volunteer several times a month. Each happy hour or book chat has a theme, but it's not necessary to share just pop in and enjoy!

A LETTER FROM OLLI PRESIDENT

Dear OLLI Members,

As I write this letter in early December 2020, I am experiencing a wide range of emotions – both positive and challenging.

The positive news is that two COVID vaccines have been announced and more are on the way. The challenging news is that it will still be several months before we can expect to safely meet face-to-face.

Another positive is that OLLI at Bradley continues to deliver high quality virtual programming via Zoom. We have a great lineup of virtual classes, study groups, originals, trips, and other programs for January, February, and March 2021. Although we cannot meet face-to-face, we should all be delighted by the wide selection and quality of the upcoming programming.

On a personal note, the OLLI virtual programming has been a life saver for my family. We thank the myriad OLLI volunteers and the Continuing Education staff for making these programs possible. Through OLLI, we have kept in touch with others, learned about what is happening in our community, and taken several wonderful learning journeys.

If you have not yet participated in an OLLI virtual event, we would encourage you to give it a try. Zoom can be challenging for some, but your OLLI volunteers are here for you with free "Introduction to Zoom" sessions and, upon request, one-on-one Zoom coaching. We are confident that our lifelong learning community can warm your spirits and be your daily "good news" during the upcoming cold winter months.

Finally, to end on a positive note, please watch upcoming editions of the OLLI email newsletter for more

information about our fundraising efforts. Your tax-deductible gift to OLLI will help defray the costs of this year's unexpected expenses to deliver virtual programming and to bridge into face-to-face programming in 2021. If you're reading this in December, remember you still have time – your gift will be DOUBLED by an anonymous donor who has pledged \$25,000 to match all donations made by December 31, 2020. To make a safe, online donation, please visit Bradley.edu/olli.

And if you or someone you know hasn't yet subscribed to our newsletter, send your name and email address to olli@bradley and staff will get you signed up!

Here's to a wonderful 2021,

John Amdall johnamdall@mtco.com OLLI President

Miriam Johnston drops off donations for OLLI's food drive for Sophia's Kitchen.

You can sign up for one, two, or all three OLLI Online Classes. Each class is approximately one hour and fifteen minutes and meets the last three Wednesdays of January.

I. Peoria Reads 2021: The Library Book 9:00 a.m.

During 2021, we mark the 20th year of Peoria Reads with the reading and discussion of *The Library Book* by Susan Orlean. Orlean re-opens the unsolved mystery of the most catastrophic library fire in American history, and delivers a dazzling homage to a beloved institution – our libraries. In this class, we'll discuss the book's riveting mix of true crime, history, biography, and immersion journalism as well as the importance of public libraries – past, present, and future.

\$20 – Class instructors are Roberta Koscielski, Deputy Director of Peoria Public Library, and Wayne Cannon, Manager, Peoria Area Food Bank.

OR

2. Geometry: The Good Stuff Your Teacher Never Told You 9:00 a.m.

You remember having to prove that triangle ABC was congruent to triangle DEF? So exciting ... but what about the good stuff? Did you study the Pythagorean Theorem proof that President Garfield did? How about tessellations? And did you get to find all the geometry in art (or the art in geometry)? Here's an introduction to some of the interesting things your geometry teacher just didn't have time to discuss. Have paper, pencil, ruler, string, and scissors handy!

\$20 – Class instructor is Mary Jane Sterling, mathematics lecturer emeritus at Bradley University.

3. Ceramics from the Ground Up 11:00 a.m.

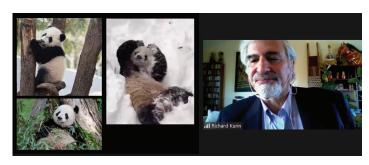

Ceramic production is an activity that has been an enduring record of human artistic activity. The class is an opportunity to help see ceramics as one of the earliest technologies of material transformation that opened to door for a whole variety of other art forms. This is an introductory experience for those that want to understand the vocabulary of ceramics as well as distinguish between some of the technical and aesthetic issues concerning specific kinds of ceramic production. We will address a brief overview of materials, types of clay and clay fabrication through history and significant evolutionary firing developments that advanced ceramic art. Lecture and demonstration of various developmental phases of the ceramic process will be used to illustrate the entire process.

\$20 per person – The class instructor is Randall Carlson, Associate Professor of Ceramics at Bradley University

OR

6. World War I - The Great War I:00 p.m.

World War I (1914-1918) destroyed four empires--killed millions--and changed the map of the world. Due to the United States limited participation (late 1917-1918) most Americans know very little about World War I. In this class, we will look at the causes of World War I, the strategies of the Allies and the Central Powers, why the conflict devolved into a trench war, the American involvement, and the end of the war.

\$20 – The class instructor is Bernie Drake, a local historian and frequent OLLI instructor who toured the battlefields in northern France and participated in a World War I seminar in 2016.

This course will also explore the history of Infragard and the FBI's relationships with the companies and organizations protecting the vital services we depend on daily.

\$20 – The class instructor is Supervisory Special Agent Chris Anglin, FBI-Quantico, Leadership Programs and Instruction Unit.

Bradley University President Stephen Standifird meets with OLLI via Zoom during our Thanks and Giving presentation.

8. Look What I Did 3:00 p.m.

January 13- A Community of Students with World-Class Instructors – Marc Adams School of Woodworking

Marc Adams founded the Marc Adams School of Woodworking in 1993 when he realized that the U.S. did not have a way to train master woodworkers. In the first year, he offered 16 classes, all of which he taught himself. In 2020, more than 200 classes were offered! What makes MASW unique is that their student base is worldwide, their instructors are the best craftspeople of modern time, and the staff and facilities are superb.

Roger Huber was crew on a 37-foot sailboat with a six-member crew from the IVY Club for the "Race to Mackinac" six times. This race requires two or three continuous 24-hour days to complete, depending on weather. Join us as Roger shares his learning journey from his sailing adventures!

January 27 - You're In Good Hands'... A Lifetime Career in Air Traffic Control

After finishing a tour of duty in the Air Force, where he was trained as an air traffic controller, and completing his college degree in 1971, Dean Doughty became a civilian air traffic controller. 3. Passion, Persistence, and Persuasion — The Walldogs as an Economic Powerhouse Jay Allen, Author, Artist, and Designer Thursday, January 21, 12:00 p.m.

Jay Robert Allen is an original member of The Walldogs Public Art Mural Painters grass-roots artist "nonorganization." Formed in 1993 in Allerton, Iowa, "The Walldogs" is a loose-knit group of hundreds of sign and mural painters across the globe who gather annually to beautify one or two small towns with multiple historicallysignificant large-format murals, similar in style to signs painted on buildings in the days before billboards. If you have been to Pontiac, Kewanee, Belvidere, Arcola, Lincoln, or Streator, Illinois, then you have probably seen their work. Jay has been a Walldogs project coordinator and leader, most recently organizing the three-person team that painted a mural in Washington, Illinois in 2020. The Walldogs create these works of historic public art to help deliver economic development in small towns that could benefit from a boost... and they have the data to prove the results! Join us to hear the story. \$10 per person

I. Enough is Enough: How to Recognize, Combat, and Eliminate Racism in America Tuesdays, January 12 – February 9 2:00 – 4:00 p.m.

Racial division has been a stain on America since its birth and continues today. How did we get here? What can we do about it? Join Brian Johnson, Executive Consultant for The Kaleidoscope Group as we delve into the complexities of our system, how it was set up and why it compounds suffering for many. We'll discuss inherent bias, the perspective of privilege, and also learn how real estate, voting and prisons are all affected by race. This is an interactive study group and participation is expected; there will also be weekly assignments that consist of watching short videos and preparing for discussion. There is no required text for this group, but it is recommended you obtain and read the first 4 chapters of *The Color of Law: A Forgotten History of How Our Government Segregated America* by Richard Rothstein.

\$25 – facilitated by Brian Johnson, Executive Consultant, Engagement Leader, and Master Facilitator with The Kaleidoscope Group, Chicago, IL.

2. Explore the World from Home Fridays, January 15 – February 5 9:30 – 11:00 a.m.

Are you ready to travel and visit a location you always wanted to see? Frustrated that you have to wait? Wait no more.... Let's visit your location virtually. John Amdall, frequent OLLI Instructor and Facilitator will work with your suggestions to show you how to visit locations, virtually, through the magic of the Internet. This is a repeat Study Group from June 2020, but we will visit new locations both as suggested by the participants and locations discovered by John Amdall in recent months. A computer or laptop is recommended. A tablet or smartphone could certainly be used, but some of the websites we will be exploring work better with a computer or laptop.

\$25 – facilitated by John Amdall, OLLI President and frequent class instructor and study group facilitator.

3. Disinformation, Misinformation, and Fake News Fridays, January 15 – February 19 1:00 – 3:00 p.m.

We live in an era where information can be transmitted around the world at the click of a button — whether it's factually correct or not. This group will help develop an understanding of the sources of misleading information so we can critically consume media and information. Dr. Cory Barker, Assistant Professor of Communication at Bradley,

will help us develop an understanding of today's information landscape and learn how to build vital skills in media literacy so that we're able to confidently consume and relay factual information. We'll learn about The Seven Types of Inaccurate Information, The 4D Model of Disinformation Campaigns, Warrant Theory, Iffy Quotient, The Deep Fake and The Cheap Fake. We'll wrap up by developing personal strategies for combating disinformation.

4. Commanded to Kill Mondays, January 18 – February 22 2:00 – 4:00 p.m.

The books of Joshua and Judges contain some of the most violent stories in scripture with a God who commands the slaughter of every living thing. These stories are often ignored or avoided. We will tackle these stories head-on. Using the book Laying Down the Sword by Philip Jenkins, we will explore these and other violent passages in scripture, looking at how these stories inspired religious violence throughout the centuries and asking the question, "How does a religion who believes in a God of peace have such violent stories in its scriptures?"

\$25 – facilitated by Pastor Bill Dohel, frequent OLLI instructor; originally he served St. Paul Lutheran Church in Peoria, but has relocated to Pueblo, Colorado to serve King of Kings Lutheran Church.

Paula Prutsman picks up treats from Great Harvest Bread Company during OLLI's recent Support Local online trip.

6. Write Your Life Part III Thursdays, January 21 – February 11 2:00 – 4:00 p.m.

All of us have stories to tell. In this study group, we will examine how best to put those on the blank page. Through the use of prompts and guided by Natalie Goldberg's excellent book, *Old Friend From Far Away*, we will develop scenes from our past and shape our memories into compelling narratives. Writers can expect each session to include "flash" writing opportunities as well as opportunities to read our work for constructive group feedback. There will be additional prompts and exercises to encourage more in-depth writing between sessions. Participants should acquire and read the book, available at online and local retailers and libraries.

\$25 – facilitated by Gary Nelson, retired attorney, frequent facilitator, and study group committee chair and Jane Hense, retired teacher, frequent OLLI instructor and past president of OLLI.
