### 1. 15-Minute Cities: Good Urban Planning or Sinister Government Plot

In the world of urban planning, the concept of 15-minute cities is a new take on an old notion; the ability for people to meet all or most of their daily needs within a short walk, bike ride, or public transit ride from where they live. However, the concept – and associated regulatory changes – have been criticized by some as government overreach and a direct infringement on the ability of people to decide where and how they will organize their lives. This class will explore the origin of the modern 15-minute city concept, its historical roots, and the criticisms that have been leveled against the planning practice.

\$30 – Class instructor is Ross Black, urban planner, community developer, former acting Planning Director and Neighborhood Development Manager of the City of Peoria. He is a frequent OLLI instructor.

\$30 – Class instructor is Dean Doughty, retired air traffic controller.

### 3. The Art and Architecture of Antoni Gaudi

Either a fool or a genius. Time will show.” This was said of Antoni Gaudi by the head of Barcelona’s School of Architecture. Gaudi turned out to be a singular genius who built in a unique and amazingly colorful style. Like Frank Lloyd Wright, he didn’t just design buildings, he was involved in every functional and decorative detail of their interiors. Gaudi is best known for his magnum opus, La Sagrada Familia, Spain’s most visited attraction. We’ll also see many of his secular works: the lush park he created out of a wasteland; the Sagrada Familia Schools; and some of his astonishing residences which others have dubbed “The House of Bones”, “The Quarry” and “The House with a Dragon on the Roof”.

\$30 – Class instructor is Roger French, retired information technology professional with a personal passion for architecture.

**Cabbage & Kings, 4450 N Prospect Ave, Peoria Heights**

We had so much fun last year this group is back by popular demand! When most people think of board games, they think of traditional ones such as Sorry, Clue, and Monopoly. Join Dan and Stefanie Crawford, owners of Cabbages and Kings Games, to explore some non-traditional games and learn how to play them. Board games have come a long way since the roll-and-move games of past years. We will explore and dive into games that last 15 - 45 minutes that are easy to learn and play. This study group will open up the world of board gaming, no experience is necessary.

We'll continue from there with some prompts, then continue with what comes to you intuitively. There are many layers to intuitive art and it changes as you work on your piece. This is not a class where we all paint the same penguin; the idea is to experience creative freedom. All of the art that is done will be completely and beautifully different and all yours. Come with an open mind and be prepared to surprise yourself and bring your thoughts and impressions to our in-person gatherings.

OLLI last explored this tumultuous year with a study group in 2018, but journalists and historians have continued to study its significance. In 2018, Time magazine wrote, "We have embarked on the 50th anniversary of a year that stands with 1776, 1861 and 1941 as points in time when everything in American history changed." Janet Lange, who recalls 1968 from the perspective of a 12-year-old, middle class girl from Illinois, will facilitate a discussion on the magazine's position that, "we live even now in the long shadow of the cascading crises of that year." Participants will be invited to prepare and discuss a person/people, place, event, or cultural change from 1968.

## ONLINE Originals

**1. Critical Mineral Resources and the USGS Earth Mapping Resources Initiative**  
Thursday, April 25  
12:00 – 1:00 p.m.

**Online via Zoom**

Mineral resources are vital to the US economy and national security and are essential components of a carbon-neutral future. However, the U.S. relies heavily on imports of many mineral commodities now defined as “critical.” The U.S. Geological Survey’s (USGS) Earth Mapping Resources Initiative (Earth MRI) is filling geoscience data gaps and modernizing mapping of the nation to better understand domestic critical mineral resource

potential and to help secure supply chains. USGS geologist Jamey Jones will talk about the role of critical minerals in our daily lives, our global context and anticipated future, and the role of the USGS and Earth MRI in addressing these societal needs. Free member perk! A Zoom link will be sent the morning of the event.

## 2. Rosie the Riveter WWII Home Front National Historical Park

**Monday, May 6**

**12:00 - 1:00 p.m.**

**Online via Zoom**

Rosie the Riveter World War II Home Front National Historical Park is a United States national historical park located in Richmond, California. Join us as we tour with Cecelia Thiel to explore and honor the efforts and sacrifices of American civilians on the WWII home front. Find out how diverse neighbors lived, worked, interacted, and experienced this time of opportunity and loss. \$15 - A Zoom link will be sent the morning of the event.

## 3. Bird Banding Laboratory

**Friday, May 31**

**12:00 - 1:00 p.m.**

**Online via Zoom**

The United States Geological Survey (USGS) Bird Banding Laboratory, an integrated scientific program, supports the collection, curation, archiving, and dissemination of data from banded and marked birds. The lab, now based at the USGS Patuxent Wildlife Research Center in Laurel, Maryland, was established in 1920 to study and help protect North American birds. Join OLLI as Dr. Tony Celis-Murillo discusses how the USGS laboratory issues permits for banding in the U.S., distributes aluminum bands—about 1 million a year—to participating scientists in the U.S. and Canada, and is a central repository for banding records in both countries.

Free member perk! A Zoom link will be sent the morning of the event.

## Zoom Training

If you would like to receive Zoom training we'll be happy to arrange a personal training session with an OLLI volunteer. Contact [olli@bradley.edu](mailto:olli@bradley.edu) and we will set up a time to help you Zoom!

## Honor Someone Special for OLLI's 30th Anniversary

As you probably know, OLLI is celebrating a big milestone this year. A \$30 donation to our lifelong learning community is a great way to help celebrate our 30th anniversary.

To make your donation even more meaningful, consider donating on behalf of someone special. You can give to celebrate a friend's birthday, a couple's anniversary, or just in honor or memory of someone at OLLI who has changed your life.

You might also consider setting up an automatic \$30 (or any meaningful amount) monthly gift. Becoming a monthly donor is one of the easiest, budget-friendly ways to make a positive difference that lasts all year.

No matter how you choose to donate, we'll send the recipient a card so they're aware of your gift.

To make a gift, please visit our website, [bradley.edu/olli](http://bradley.edu/olli), or send a check to the Continuing Education Office, 1501 W. Bradley Ave., Peoria, IL 61625.

# President's Letter

Thirty years ago, a steering committee of visionaries began the Institute for Learning in Retirement (ILR) at Bradley University. In October 1994, ILR offered 10 classes, held in the Michel Student Center. 84 people signed up.

It is breathtaking to see what OLLI has become in the past thirty years! In 2023, close to 1,100 of us attended 67 classes, 122 trips (live and virtual) and OLLI Originals, and 48 study groups!

OLLI at Bradley is a success story and it is incumbent on each of us to spread the word. To that end, we started Each One Reach One, to bring in new members to experience OLLI. We also have volunteers who will attend your church, professional or community groups to tell our story. You just need to tell us when and where!

OLLI at Bradley is poised to embark on new adventures, and I have full confidence in the collective wisdom and enthusiasm of our community to guide it toward even greater heights.

When I step down as President in June, I will carry with me the memories of our shared accomplishments and the anticipation of the remarkable journey that lies ahead for OLLI at Bradley. Thank you for entrusting me with this leadership role and thank you for being the heartbeat of our lifelong learning community.

Wishing you all continued joy in learning and growth.  
Happy Anniversary OLLI!

Gary Nelson, OLLI President

### **ASSISTIVE LISTENING DEVICES**

Assistive Listening Devices are available for all programs. Please call (309) 677-3900 for details.

### **DIETARY CONCERNS**

All OLLI programs will provide options for vegan, vegetarian, and gluten-free meals upon request. If you have a dietary issue, please contact our office at (309) 677-3900 at least two weeks before your program, so we can meet your dietary needs.

### **DRIVING ON TRIPS**

We encourage all of our trip participants to use OLLI's shuttle transportation, as many of our trip sites have limited parking and require the group to arrive at one time. Plus, traveling as a group allows for more socializing!

### **GUESTS/INVITE A FRIEND**

If you have a friend who has never been to OLLI classes and would like him or her to attend as your guest for one free session, please contact our office at (309) 677-3900 at least one day in advance so we can have a list of available classes prepared for the visit. It is important to reserve this privilege for those who haven't yet experienced OLLI classes.

### **PROGRAM DETAILS and PARKING**

For all programs an email will be sent prior to the event regarding specific details on times, location, and parking. For learning trips, we provide reserved parking in the Campustown shopping center, 1200 W. Main. Study groups meet at locations throughout the Peoria area and have ample parking.

### **PARKING FOR CLASSES**

We offer a "park-and-ride" option so you can park in large lots near campus and enjoy drop-off service at the front door of the Michel Student Center. You may choose to park at Shea Stadium, located near the Ag Lab at the corner of University and Nebraska avenues or Westminster Presbyterian Church, 1420 W. Moss Avenue, and the OLLI shuttle will transport you to and from campus. OLLI provides park-and-ride service, because OLLI members are not allowed to park anywhere on campus, including the Visitor's Lot. If you park on campus and receive a ticket, you will not be eligible for an appeal and will be required to pay the fine.

### **CLASS PARKING PERMITS**

For our members taking classes who have state-issued handicapped placards or license plates AND are physically unable to utilize our door-to-door shuttle service from Shea Stadium and Westminster Church, we have a very limited supply of handicapped-accessible parking permits for use during classes. At a cost of \$10 each, these permits allow you to park in a handicapped or white-lined space on campus for all four class dates. All requests must be made via telephone to (309) 677-3900 three weeks prior to the first day of in-person classes. When you call, please be prepared to provide your license plate number, your placard number and expiration date, and the make, model, year, and color of your vehicle.

### **SCHOLARSHIPS**

OLLI class scholarships are available for persons who cannot afford membership fees, but who have an interest in learning and wish to participate. To request a confidential scholarship application, please contact Catherine Lawless, Associate Director of Continuing Education at [clawless@bradley.edu](mailto:clawless@bradley.edu) or call her at (309) 677-3900.

### **PHOTOGRAPHY**

Photographs are taken during all OLLI programs. Your registration gives consent for any such photographs to be used for advertising and publicity purposes by Bradley University, its licensees, and/or member organizations, and you waive all claims for compensation for such use or for damages.

### **WAITLISTS**

Many of our programs, especially learning trips, fill quickly. If you find a program full at the time of your registration, please ask to be placed on a waitlist so you can be called when another member cancels or if we are able to increase the program's seating capacity.

### **WEATHER**

In the rare case that Bradley University is closed due to inclement weather, all OLLI programs scheduled for that day will also be cancelled. Please refer to local television and radio stations for closing information.
