

Technology Commercialization Center

Virtual Client Program

The Bradley Technology Commercialization Center (BTCC) and Peoria NEXT Innovation Center is the region's epicenter for the entrepreneurial community. Bradley University and the BTCC deliver programs to promote entrepreneurial education, community collaboration, and other related resources in the region while managing a diverse 48,000 square foot business incubation center that is home to over eight growing companies.

Entrepreneurs and small businesses looking to leverage resources that assist in the growth of their companies, but that do not require them to become tenants, may apply to become a BTCC Virtual Client. We provide Virtual Clients with access to many resources the BTCC provides to existing tenants of the Peoria NEXT Innovation Center.

- Listing as a Virtual Client on BTCC website-with link to member's website
- Invitations to attend tenant meetings (once per month)
- Invitations to BTCC events and training seminars
- Use of BTCC's press release distribution program
- Added to BTCC's tenant e-mail distribution list to receive information on resources and events in the region
- Use of BTCC's and Peoria NEXT Innovation Center conference rooms-subject to availability (2 free hours per month)
- Free wireless internet access at BTCC
- On-site Notary Public

* 1 year membership= \$500 * All virtual clients must submit an application and meet eligibility requirements
(Business plan review and initial consultation; Retail businesses are not eligible)
