

Humana Network Diabetic Benefits Effective October 1, 2009

Living with diabetes can be a challenge. Research shows that to maximize your glucose control and reduce your risk of diabetes-related complications, you must check your blood sugar every day using an accurate blood glucose monitoring system.

Humana, administrator of the Bradley University Prescription Plan for the Humana Network Option offers the following benefits for diabetic supplies:

FREE Glucose Meter (1 free every 365 days)

- Take prescription for a glucose meter to pharmacy counter to be filled with your choice of any brand of monitor

\$0 Co-pays on Diabetic Supplies With Prescription

- must have doctor's prescription for covered supplies and fill at pharmacy counter or through mail order
- supplies such as test strips, lancets, syringes, needles, BD pens and alcohol pads have \$0 co-pay

Insulin Vials and Insulin Pens With Prescription

- 30-day supply retail co-pay charge of \$10 for generic, \$30 for preferred brand and \$50 for non-preferred brand
- 90-day supply mail order (or retail at certain pharmacies) co-pays would be \$20, \$60 and \$100 respectively (prescription must be written for 90-day supply)
