# Tips for the Day

---

## First Impressions: 30-second Introduction

Effectively introducing yourself at a job fair takes some practice. Your goal is to get the conversation started by providing basic information about your background, identifying your career interest followed by a "conversation starter" which demonstrates your knowledge and interest.

### ***Part 1: Your background (information about yourself to provide context for the conversation)***

- Name
- Year in school
- Major (if it supports your career goal)
- Highlights of relevant experience (work, classes, leadership experiences)

### ***Part 2: Your career interest***

- Type of job desired (intern or full-time)
- Knowledge of or connection to the organization

### ***Part 3: Conversation starters (be creative - these are a few ideas)***

- I see from your web site that you are seeking a summer interns, can you tell me more about the qualifications you are seeking?
- I am familiar with your organization because I have been a volunteer with you for three years. I am pleased to see that you have full-time openings. What is your application process for these positions?
- I have been following your organization through your social media feeds. Can you tell me more about \_\_\_\_\_?

## Sample Questions to Ask

- What key skills are you looking for in your candidates?
- What is the application process for this position?
- When do you hope to have these positions filled?
- When will you be selecting candidates to invite to an interview?
- If I am lucky enough to get an interview, do you have any suggestions on how I should prepare?
- Once I submit an application, is it OK to follow up with you? What date should I target?
- How did you get started with the employer?
- Any suggestions/advice on additional experience I should gather before making application?
