

**Center for Teaching Excellence and Learning Application Form  
Inclusive Teaching in STEM**

**The Bradley University Center for Teaching Excellence and Learning** is pleased to announce funds to advance the ability of Bradley STEM faculty to cultivate inclusive learning environments for students. This six week program has two components: 1) an online “Inclusive STEM Teaching” course divided into several modules and 2) a Bradley Learning Community (LC) that will be moderated by Dr. Melinda Faulkner and Dr. Kristi McQuade. LC meetings will be held weekly on Wednesdays from 12-1 pm, with an alternate meeting time selected based on participant availability.

The course begins March 24<sup>th</sup> and runs through May 6<sup>th</sup>, 2025.

In support of Bradley’s NSF-funded SUSTAIN program, we are especially interested in supporting faculty who teach STEM courses that enroll first year students. However, all full-time faculty are eligible to apply.

Ten Bradley STEM faculty will be eligible for a \$500 stipend, contingent on satisfactory completion of the program. Participants should plan to spend 3-5 hours per week engaged in the course and associated discussions, which include review/completion of course materials, plus the 60-minute weekly learning community meeting.

**Instructions:** Please type in the requested information. Email the completed form to: [ctel@bradley.edu](mailto:ctel@bradley.edu) by March 14, 2025.

Name:

Department:

Rank:

Do you teach in a STEM discipline?

Do you teach first year STEM courses (If so, which ones)?

Can you be available on Wednesdays at noon for the LCs?
