

IMMIGRATION STATUS EXTENSION REQUEST

UG Advisor/GR Coordinator Confirmation Form

Part 1: To be completed by Student

I, _____, with BU ID _____, request to have my immigration document extended for the following reason (include a specific statement explaining the compelling reason for your extension):

Part 2: To be completed by UG Advisor/GR Coordinator

In order for an F-1 or J-1 student to be eligible for a program extension, they must have made normal progress towards their degree and must have academic requirements preventing them from completing their program on time. The student must also have a compelling academic or medical reason for the delay and that does not include delays caused by probation/suspension or delays caused by an internship. Please take that into consideration before you approve an extension: if you don't believe the student qualifies, then please do not complete the application.

I have spoken with the student above and have read their reasoning for the extension request and believe that it is a compelling reason to extend their academic program. I recommend that the student be allowed additional time to complete the following degree requirements: _____

and the student's new expected program completion date will be _____ (semester year).

Advisor Name: _____ Email: _____

UG Academic Advisor or GR Coordinator Signature: _____ Date: _____

Please return the completed form to the student for submission to OISSS. Note that OISSS will determine final approval.
