

Our Story

They say that our future is bleak
and that there is no way to escape
the ending we have inevitably written ourselves into.
But they haven't read our book all the way through,
for we haven't finished yet.
We are still writing,
and our plot may change.
It will take time and effort, but
we will leave our mark
in bold, black ink.
It will dance across the page
and tell the story of
the generation that
learned from their mistakes and
did great things.
We'll be the the generation
that accomplished our goals and dreams,
because we were not afraid to change, and to work.
And we will leave it for future generations to flip through,
to contemplate,
to connect with,
and maybe,
just maybe,
it will motivate them to write
an inspirational ending, too.
