

# FORCE AND RIOTS

---

It is the 21<sup>st</sup> century

Its more like the 20<sup>th</sup> century

We are living with racism

Against innocent people

Police officers are taking power

Police officers are using too much force

2 years ago this was not happening

People need to think before they do

I am not on one side but both

People should stop destroying cities

They are not helping anybody by doing that

They destroyed peoples property

The person who died did not ask them to do this

People need to do justice

Not destroy buildings and say its justice

—Chelsea
