The Smith Career Center is pleased to offer Bradley netWORK, your online database of jobs, internships, and employers. The platform is powered by 12Twenty and is mobile friendly. Use the system to apply for jobs, search on-campus opportunities, research employers, explore career events, report your outcomes, and much more. See below for some helpful tips.

- **Student & Alumni Access** - [https://www.bradley.edu/scc/](https://www.bradley.edu/scc/)

**PROFILE**
- Go to Profile to select your career industry preference, review your information, and upload a picture.
- Select Application Materials to upload resumes, cover letters, and other job search documents. Before uploading any documents, it is recommended that you meet with your career advisor.
- Update Resume Settings by going to Account Settings (your name on bottom of screen). Edit Resume Settings to be included in the Employer Candidate Search.

**OCI AND JOB LISTINGS**
- Begin in the All tab to search OCI and Job Listings by Employer Name, Job Title, or Keyword.
- Use the filters to narrow your search by Metro Area (location), Fields of Study (your major), and Type of Job (Full-Time, Internship/Co-op, Part-Time/or Seasonal, or On-Campus).
- Create saved searches and set your settings to receive email notifications regarding new jobs.
- Go to the OCI tab to see employers using the system to schedule On-Campus Interviews. Follow the instructions to apply. This section is only for the employers using the system to schedule interviews. Many other employers come to Bradley's campus to interview, but they use their own online application system to collect resumes. You will find these opportunities in the All tab or Job Listing tab.

**EVENTS**
- Scroll through the various events being offered by the Smith Career Center, including Job Fairs, Employer Information Sessions, Workshops, and Special Events. Don't use the search functions on the main screen. Instead scroll through and click on events that interest you for details.
- Register for an event (if applicable) so that it shows up in your My Events tab. You will also receive an email reminder about the event.
