

An informed and focused set of questions will convey to the representative that you are truly interested in graduate school and allow the representative to avoid generalities. Also look for useful printed materials at the school's table like business cards, brochures, handbooks, etc, to help you learn more about the programs or what additional information they provide. You can also look for more detailed information about the degree programs on their websites to make an informed decision about your interests.

**Here are a variety of questions that should help you get the most out of the conversations:**

- What are the admission requirements (GPA, undergraduate coursework, entrance exams, experience, and interview)?
- What is the average entrance exam score and GPA of students who are accepted?
- When is the application deadline? Is there an early admission deadline?
- What is the application process/timeline (application materials, interview)?
- Are students admitted in both the fall and spring semesters? (rolling admissions)
- How important is it for applicants to have extracurricular activities, volunteer and/or work experience?
- Are there any recommended courses in addition to the stated prerequisites?
- How much does the program cost (tuition, student fees, housing)?
- What types of financial aid are available (fellowships, assistantships, scholarships, loans)?
- Is it possible to work full-time and complete the degree as a part-time student?
- Will I complete an internship as part of the program? Is it required?
- How much choice will I have about where I do my internship?
- How many faculty members are there and what are their areas of research?
- What do you think is unique about your program?
- How many years on average does it take students to complete the program?
- Is a thesis, dissertation, or comprehensive examination(s) required for completion of the degree?
- Will I be able to take electives to pursue other areas of interest?
- What is the projected size of the entering cohort/admission group?
- Do you reserve spots for in-state residents?
- Do you provide joint degrees? (ex., Law and MBA; Engineering and MBA, etc.)
- Where are graduates of the program employed?
- What percentage of your graduates are employed in a relevant field within six months to one year of graduation?
- Could you tell me more about the facilities (libraries, labs, offices, gyms)?
- Could you tell me more about student life on campus (diversity of the students, student organizations, housing, and campus support services)?
- Do you have open houses or information sessions?
- Would it be possible for me to arrange a campus visit in which I could meet with admissions representatives, current students, and faculty?
- May I contact you if I have additional questions?
