

# **Example 2019-2020 Senate Bradley University Senate Fourth Regular Meeting of the 2019-2020 Senate**

3:10 p.m. – 5:00 p.m., December 11, 2019 Michel Student Center, Ballroom A/B

## **Minutes**

Bradley University empowers students for immediate and sustained success in their personal and professional endeavors by combining professional preparation, liberal arts and sciences and co-curricular experiences. Alongside our dedication to students, we embrace the generation, application and interpretation of knowledge.

### Agenda

### I. Call to Order

### II. Announcements

### III. Approval of the Minutes (See Attachement 1)

**Motion:** Senate Tayyeri.

Discussion: These must be corrected to say "3rd regular meeting".

**Approved** 

### IV. Reports from Administrators

### A. President Roberts

- 1. Follow-up on **Town Hall.** Administration wants to grow revenue rather than cut but growth takes time. There are plans to revive the Accelerated Nursing, grow Interactive Media, and expand DPT program. Administration is talking with Pearson about growth in areas where there's a market. But how do we deal with the short term? There is a late December teleconference with board and another January 7 call with the board in which he will try to persuade them to patience. The BOT's tolerance for deficits depends on confidence in plans for revenue growth and their believe that we're being efficient on the cost side. If we don't have that, they'll insist on cost cutting. We'll have a better picture after the holidays.
- 2. Almost completely moved into the **new building (BEC)**. Starting December 23, Jobst demolition project will begin with asbestos remediation which takes about 1 month, and full demolition beginning around February 1, so final wing will be ready for 2021. The existing new building will be fully online for the start of Spring semester.
- 3. **Presidential search**: 20 candidates have been identified for a 2<sup>nd</sup> look. Then a smaller group will receive airport interviews. On track to have someone identified by 1<sup>st</sup> of March.

### **Questions/Discussion**

- Senator Muncy offered insights into the marketing perspective with a focus on market penetration which would increase revenue in the short term. While market development is important, market penetration seems to be missed.
- Senator Goitien commented on the need to leverage the strengths we have.

### B. Senior Vice President of Academic Affairs and Provost Zakahi

- 1. **Thank you** for your work this semester.
- 2. Reminder about **Student Expo** for Spring.

- 3. **Program Prioritization:** USPC met today and is almost finished with the narrative analysis component of program prioritization. He is working with quantitive data. Meeting with Deans in January after we return, and Board in February. Information will be shared with campus.
- 4. **Online Program Growth:** Administration is looking at significant increases in Graduate Online programs that will help with financial bottom line. 4 new nursing programs and 2-3 in various EHS areas and CS plans with Pearson or Meteor are being developed. Business College is close to signing with Meteor for 2 programs. Based on conservative estimates, the Provost projects 2000 new students by 2024 from these efforts. Some selected undergraduate online programs will be examined in the future. Previously he had stated that online was not a longterm solution for Bradley, but a niche in the health and tech areas could be developed for long term.
- 5. **Technology in the new building:** Some problems have occurred with tech in the new building but should be on track for Spring semester start. What's working is great.

### **Ouestions/Discussion**

Motion to let Ed Lamoreaux speak – Senate President Fakheri. Approved.

Ed Lamoreaux raised questions about how Program Prioritization meetings will work in relation to the special meeting of the Senate on January 23 (approved in the Third Regular Senate meeting). This timing will not allow Senate to review Administration's proposals before the BOT meeting.

Provost Zakahi replied that he has promised that if a recommendation were to be made about eliminating a Unit, it has to go through a Senate process. He expects to present BOT with results of the Program Prioritization and to reveal what's in the lowest quintile "bucket"; the first stop for changes will be at Strategic Planning who will present to Senate.

During this discussion it was revealed that the President and Provost will present at the NCAA meeting, a meeting they agreed 6 months ago, and they are no longer able to promise to attend the Special meeting scheduled for January 23<sup>rd</sup>.

Motion: Senator Bosma -- postpone the January meeting of the Senate to the 30<sup>th</sup> of January so president and provost can be in attendance. Approved.

Further concerns included a call to continue to emphasize getting things done right. In addition a question was raised regarding online programs: Who is teaching in these programs and what are the costs on technology development and how does this impact the budget? Also, are the online students full or parttime

Provost's answers were that Pearson will provide cost statement in Spring. Bradley will do analysis then. Online students are largely part-time, but they are enrolled in 3 terms rather than 2.

### V. Report from Student Body President Megan Brezka

No report.

### VI. Modification of C&R committee membership (see Attachment 3)

Motion: Senator Benedovic -- to modify C and R membership

**Discussion:** none

Motion approved: Ayes have it; several nays voiced.

### VII. Modification of SPC membership (see attachment 4)

Motion was made in last meeting.

Discussion: none

Motion approved: Ayes have it; with nays voiced.

### VIII. February Forum?

There has been discussion about having another forum about the University's financial future, but this time without administrators, for a freer flow of ideas and with a moderator. The points from previous forums were shared with president and provost and deans. Is there value in having this forum for faculty and staff?

**Discussion** included a question about how results would be disseminated, the assurance that the notes from last meeting were anonymized, and a question about whether this would be more discussion-based rather than one turn at a time.

### IX. New Business

Report of Admission and Retentions committee: Senator Goitien speaking as Chair.

- 1. **Academic Exploration Program** this is one of our historical strengths for retention. But it could be that for first generation families, the fact that students change majors may not be clear. Looking at energizing marketing toward that issue.
- 2. **Test Optional** discussion with VP of Enrollment Management, and will seek input on a college-by-college basis.

**Discussion:** a suggestion was made that the committee spend time on the retention issue regarding WI tags.

### X. Adjourned at 3:55

Submitted by Danielle Glassmeyer, Senate Secretary
